<ul style="list-style-type: none"> Record Location 	Applicator Records	Central Location 
<ul style="list-style-type: none"> Recordkeeping Time 	2 yrs after application date (Section 487.160)	30 days after the REI expiration time and/or application time (for pesticides without an REI) and on the establishment for 2 years after REI expiration date. (Sections 170.309(h) & 170.311(b)(5)(6))

Other WPS Pesticide Application Record Timing Considerations for Central Location

If field warning signs are posted for a treated area *before* an application, the pesticide record application information for that application shall be posted at the same time or earlier. The information shall be posted *before* the application takes place, if workers will be on the establishment during application. Otherwise, the information shall be posted at the *beginning* of any worker's first work period.

REMEMBER

Use warnings signs correctly, it's the Law!

The signs shall be posted no sooner than **24 hours** before the scheduled application of the pesticide, remain posted throughout the application and any restricted entry interval. They must be removed within **3 days** after the end of the pesticide application, restricted-entry interval expiration time and before agricultural workers entry is permitted.
